fantastic game. the mechanics of flight are surprisingly simple and easy to learn, despite the lack of tutorial. i highly recomend this game.. Absolutely incredible game. Mind-bogglingly engrossing story. Very few games can give you that slightly excited, slightly blue "just finished a great book" feeling. The Mercury Man pulls that off like nothing I've seen before. Great graphics? Sure, yeah. Great combat and gameplay? Sure, yeah. But it's the writers who deserve gold medals for this one. This game's story has left me wanting more.. The Tape is a psychologic horror game in a first person view what a bit can remembering a walking simulator.

This game mostly based at creepy atmosphere, all game style follow this. The darkness, footage style with even more creepy mode, strange and weird objects. The story in a game enough simple, but how i said the atmosphere well compensate that, especially if you use a "heavy" camera mode, its can be very creepy. The game graphic not the best, but this you can miss because in a shadow you mostly don't see a lot detail. The sounds are okey, well fit to game atmosphere.

So my verdict

+creepy atmosphere
+interesting camera mode
+steam achievements

-a bit buggy
-no trading cards

This game a very specific i think, because not all people like a horror games, especially a psychologic horror games like this, mostly people like games with more action. Well, this game do really creepy atmosphere, so if you are big horror fan you will should try it even though this game have a little problems too.. Kinda bad, after buying this, i played for 5 minutes and then got reminded of Need For Speed Underground 2, so i just went and played that instead. This is an old school style arcade space shooter game. The controls took me a bit to get use to as they use Q-W-E-R to shoot and the mouse to scroll the ship. It is basic but it is still fun and challenging!. A LOT of fun with 3 friends!
